

FLEMISH BEAUTY PEAR

USES: Eating and canning

FLAVOR: Firm when green, juicy when yellow. It has the best pear flavor with outstanding sweetness.

CHARACTERISTICS: Medium to large fruit. The flesh is smooth and not gritty. It matures to sweet flavor while staying firm. Stores very well under refrigeration. Can be canned with lower sugar due to natural sweetness. The yellowish-white flesh is firm, but tender, becoming melting when riper. Good for eating out of hand and drying.

RIPENS: September to mid-October

ORIGINATED: Wisconsin/Illinois area
